

## F200

### PRODUCT DESCRIPTION

The F200 is the flagship outboard in Yamaha's big four-cylinder range, delivering an extremely powerful engine in a highly compact and lightweight package. Suitable for a wide range of applications, this 2.8 litre, four-stroke engine is not only the lightest in its class, but delivers an unbelievably smooth and quiet operation. The F200 comes with variable camshaft timing, which boosts low and mid-range torque for improved acceleration and overall performance.

This exceptional outboard also comes with a 'fly-by-wire' digital throttle control option, offering extremely smooth and simple operation, making time spent on the water even more enjoyable. This engine is an ideal choice for repowers and due to its slimline shape is also perfect for twin outboard setups.
