

F350

PRODUCT DESCRIPTION

The Yamaha F350 is the world's first four-stroke outboard to use a V8 5.3 litre engine - delivering the ultimate power and performance package for serious offshore fishermen and commercial operators. This engine comes with an advanced digital electronic throttle and shift controls for smooth operation and throttle reliability and is fully compatible with Yamaha's range of high quality digital displays and gauges. Combining an extremely powerful purpose built outboard with cutting-edge engineering and technologies, this class leading engine sets the benchmark for quick acceleration, high-end speed, fuel efficiency, low emissions, quiet operation and of course Yamaha's legendary reliability.
