

VF90

PRODUCT DESCRIPTION

The all-new Yamaha 90-horsepower In-Line Four V MAX SHO® may be the smallest in the V MAX SHO® line, but it packs the biggest punch of any 90-horse on the water.

Its SOHC four-valve-per-cylinder design minimises weight while optimizing combustion. In fact, its lightweight design combined with 1.8L displacement makes the VMAX SHO 90 the class leader in torque and top speed. A reconfigured gear ratio also gives the VMAX SHO 90 greater holeshot and improved top-end speed over it's F90 sibling. The all-new Yamaha VMAX SHO 90, the latest addition to the VMAX family.
